

# How to buy BMONK Token?

## Install Trust Wallet on your mobile device

**Step 1-** Download Trust Wallet app from Playstore on Android or App Store on iOS.

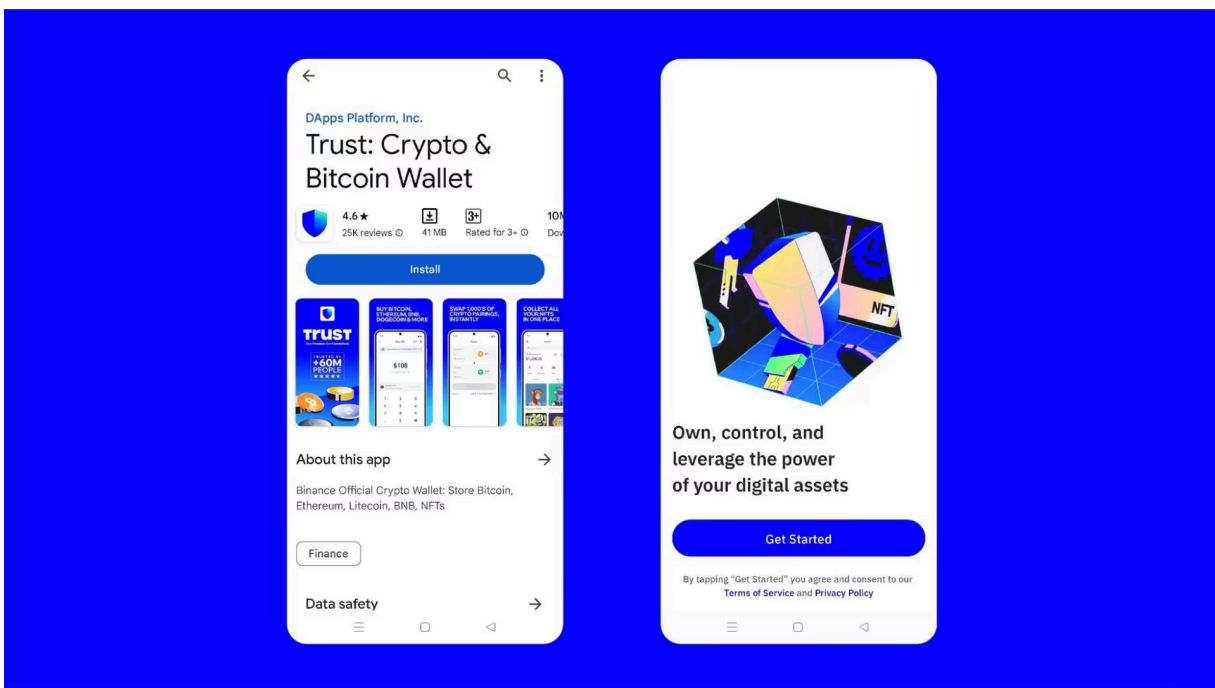

Playstore link-

**Step 2-** Open the app and click on '**Get Started**' to start the setup process.

**Step 3-** Next, select **'Create a new wallet.'**

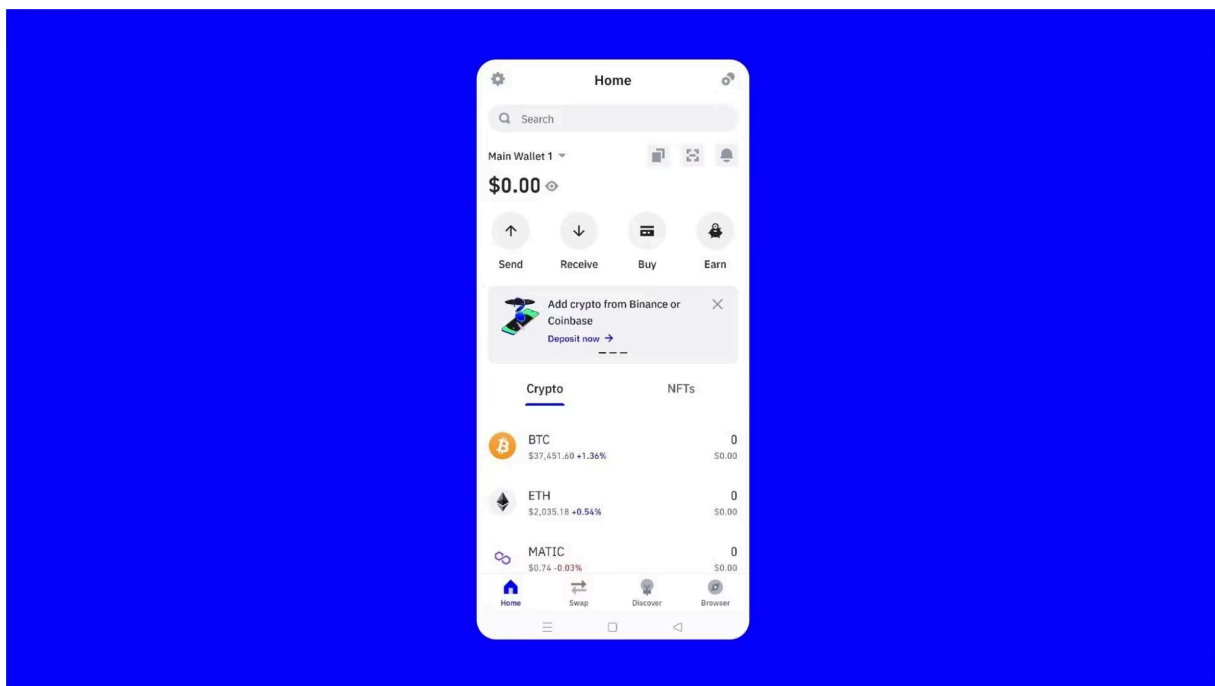

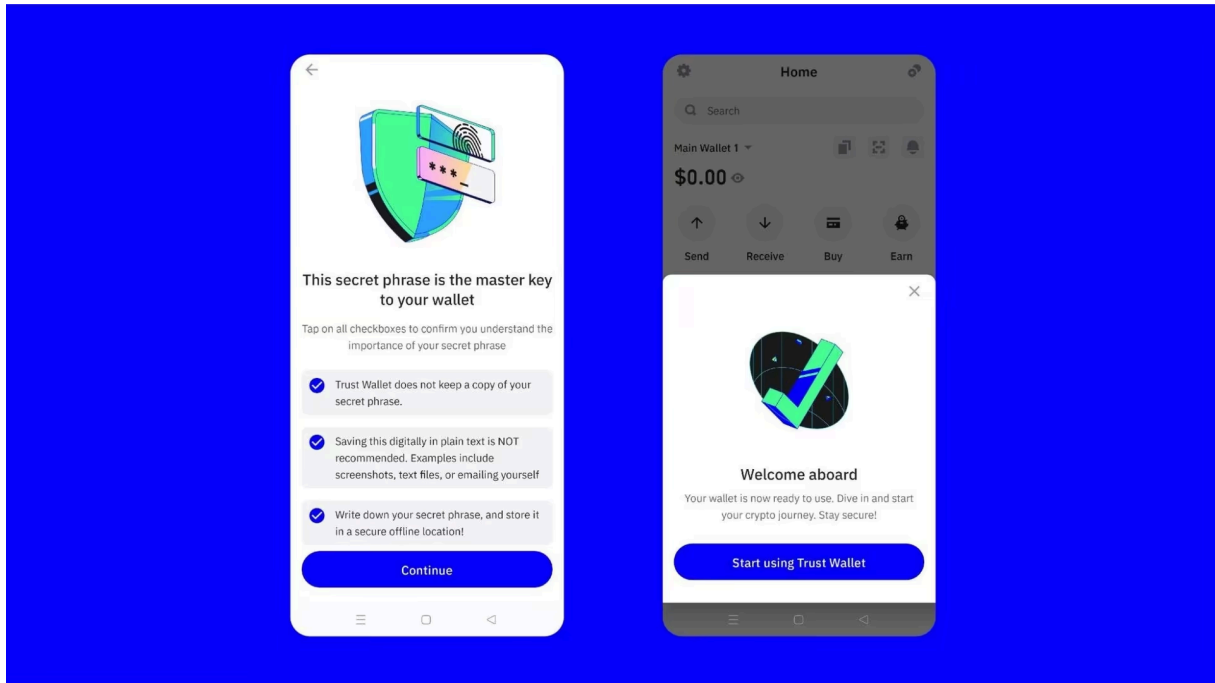

*Trust Wallet will require you to back up your secret phrase. You can choose to back up your secret phrase manually or to Google Drive. (iCloud, in the case of iOS devices.)*

*To manually back up your Trust Wallet, you'll need to note down a 12-word secret passcode that will allow you to recover your wallet in case you lose access to it or change your smartphone device.*

Remember, storing your secret phrase securely is important. Losing your 12-word secret phrase means losing access to your account and funds. You can write it down on a piece of paper and keep it in a secure place.

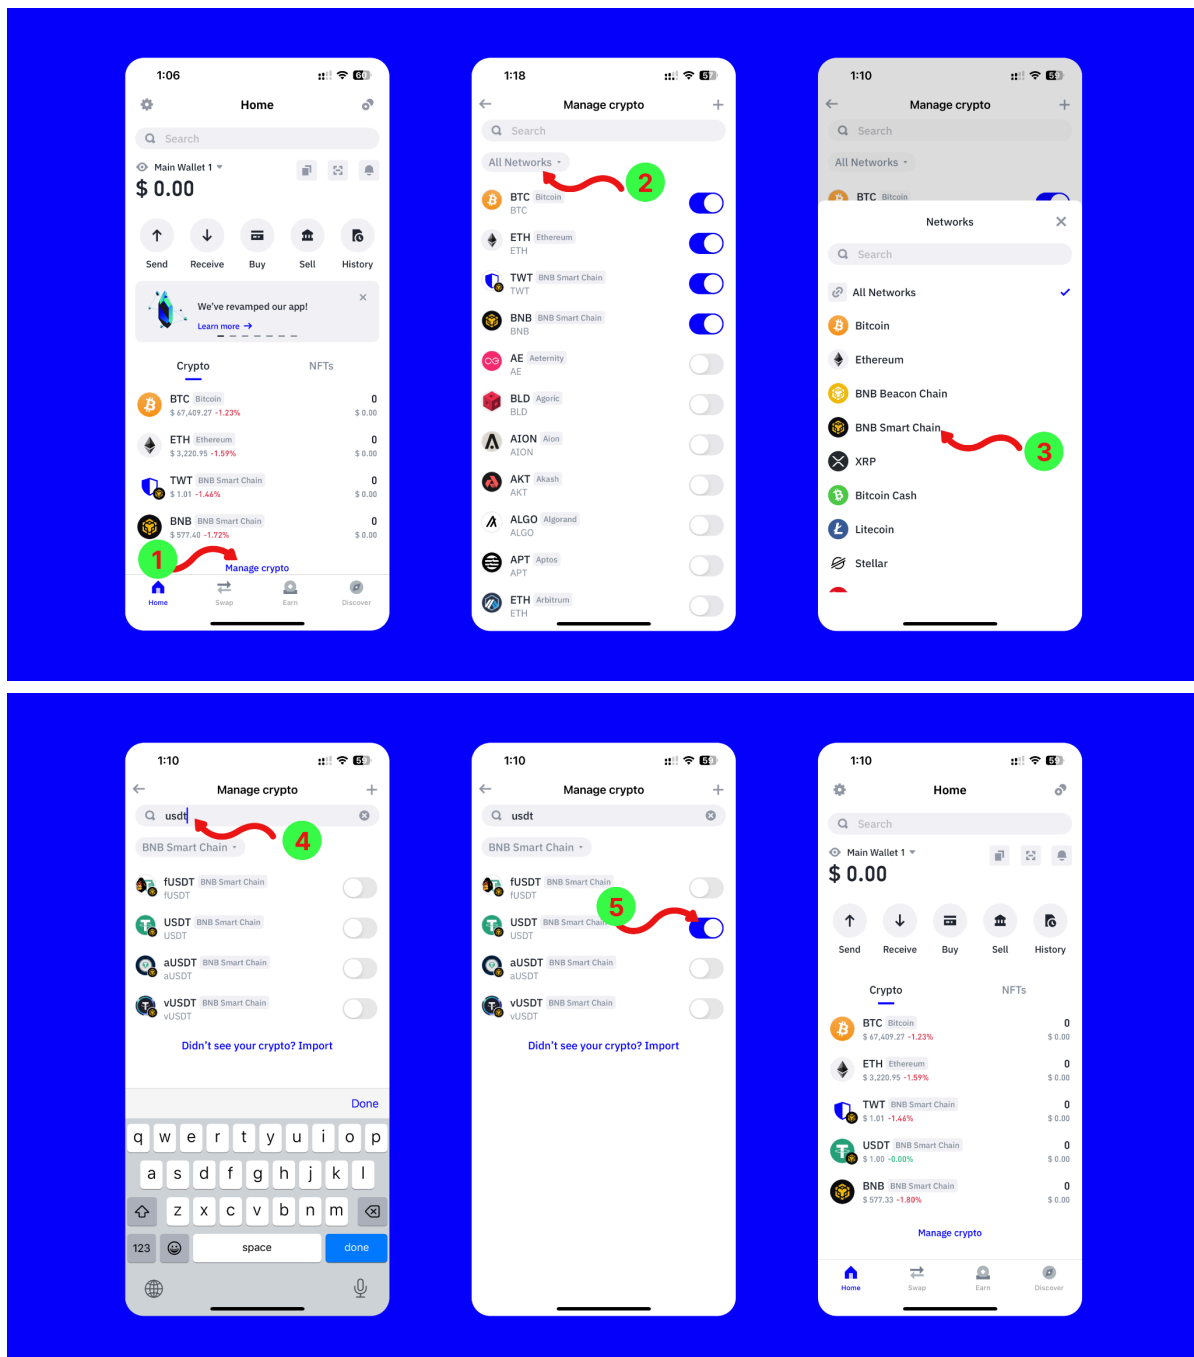

- Remember to accept the Trust Wallet guidelines as shown below, then click on **‘Continue.’**
- Next, write down the 12-word secret phrase in the order shown and click on **‘Continue.’**
- You’ll need to select only four random words of your seed phrase in the number they were shown as. Select the four words and click **‘Confirm.’**

And that's it! You have successfully created your Trust Wallet and are ready to start using the app.

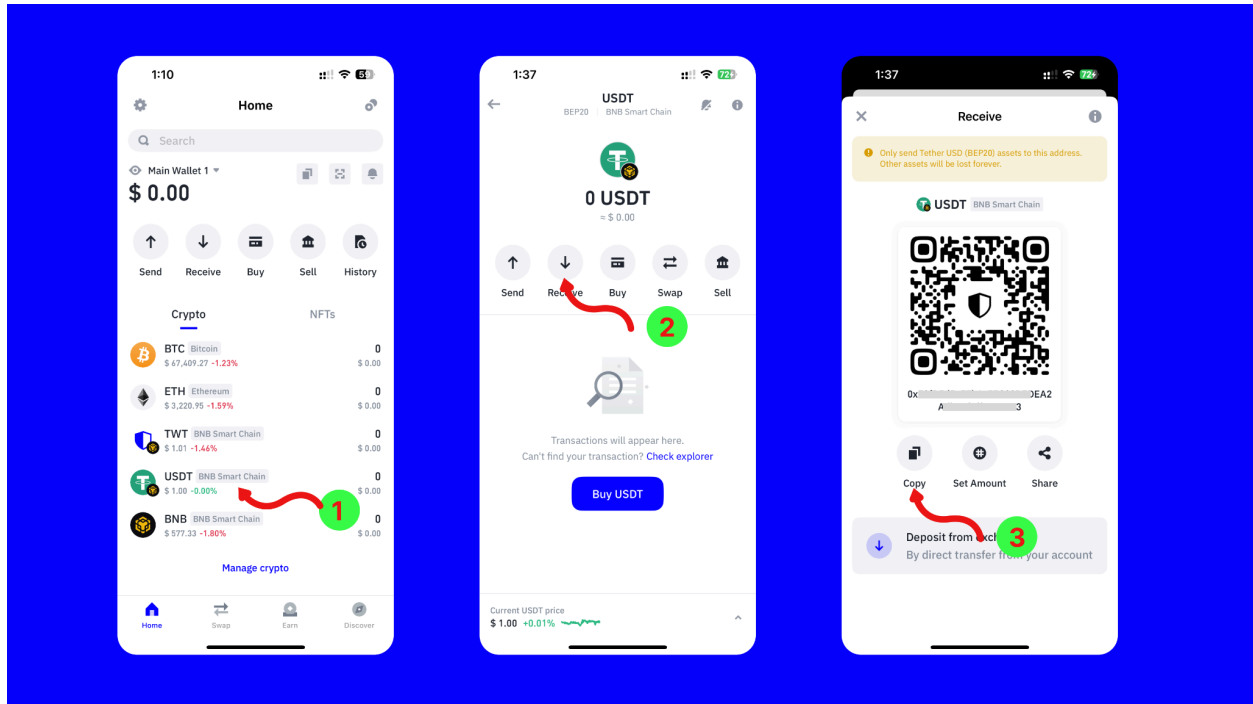

# Enable USDT
